

Claiming System

Claiming is a mechanic that allows all players to protect their land from griefing or stealing by other players. Naturally, a claim prohibits all players, except the owner of the claim, from breaking, placing, and interacting with blocks. The owner of the claim can add members to the claim, granting them various levels of permissions in the land. Players can also use signs to claim specific doors, gates, and chests alone, locking them for all other players.

How to Claim

1. **Get a Golden Shovel:** Obtain with `/kit claim`.
 2. **Select the First Corner:** Right-click on the ground with the golden shovel to mark the first corner of your claim.
 3. **Select the Opposite Corner:** Move to the opposite corner of the area you want to claim and right-click again with the golden shovel.
 4. **Claim Confirmation:** To confirm that the land is claimed, a visual outline of glowstone and blocks of gold will appear like an outline of the claimed land.
-

Trusting Commands

- `/trust (Username)` : Grants a player permission to break, place, and interact with blocks.
 - `/containertrust (Username)` : Grants a player access to containers, crops, animals, bed, and buttons/levers.
 - `/accesstrust (Username)` : Grants a player access to your bed, buttons, and levers.
 - `/permissiontrust (Username)` : Permits a player to share their permission level with others.
 - `/untrust (Username)` : Removes all permissions of a player in a claim
 - `/trustlist` : View all players with permissions in your claim.
-

Other Commands/Features

1. `/Claimslist` : View all your current claims, including the coordinates of each, and how many total claim blocks you have used and have available.
2. `/Unclaim` : Removes the claim you're standing in.
3. Using a stick, right-click the ground to check if that land is claimed
4. `/trapped` : If you're stuck in a claim, simply run this command

If the scoreboard is enabled, details of the claim you're currently in appear on the right-hand of your screen!

Claim Blocks

Claim blocks tell you how many blocks of land you have available to claim. You can view how many claim blocks you have by using the command `/claimblocks`

This is what will show up after doing the command

```
Jack_jam's claim block expenditure:  
+ 100 starter claim blocks  
+ 86810 earned/bought/applied  
= 86910 total accrued claim blocks  
- 49745 claim blocks spent (on 26 claims)  
■ 37165 claim blocks available to spend
```

Players can obtain claim blocks by completing challenges, playing chat games, and buying them from the [store](#).

Claiming Chests, Doors, and Gates

1. **Obtain a sign:** Craft with 6 wood planks and 1 stick.
2. **Place the sign on the block:** Right-click the chest, door, or gate with the sign.
3. **Claim Confirmation:** To confirm that the block is claimed, a message will show up in chat stating "Created a claim. Only the people listed on the sign can access it."
4. **Add friends to the claim:** Right-click the sign, move down to next open line, and add the username of a player to grant them permission to use the chest/door/gate.
