

Staff Ranks

You may see us all around the server, but what does each rank of staff do?

DIRECTOR

- Our Director Ryan is in charge of running the server behind the scenes and helping push out our newest features.

MANAGER

- Managers keep all of our teams in line and efficient while helping alongside Ryan.

LEADERSHIP TEAM

- The Leadership Team (or LT for short) oversees smaller branches of our Content Team like QA, Events, Media, and Build. They also assist in tickets when needed.

ADMIN

- Admins assist leadership team on the support side of things, they are able to help with staff reports, applications, and give feedback on more tricky situations.

SR STAFF

- Sr staff are admin in training. They help players with everyday issues, but can also hold additional responsibilities like overseeing build or QA teams.

MOD

- Moderators are core staff members whom players reach out to! They mentor our helpers and help with rolling back houses after griefing, among many other things.

HELPER

- Helpers are our mods in training, they can answer any questions you may have and collect evidence for any punishments.

CE

- Community Experience creates fun events, comes up with ideas, tests updates, and watches over the server from a player experience point of view.

MEDIA

- Creates fun videos and promotions for our social media platforms.

BUILD

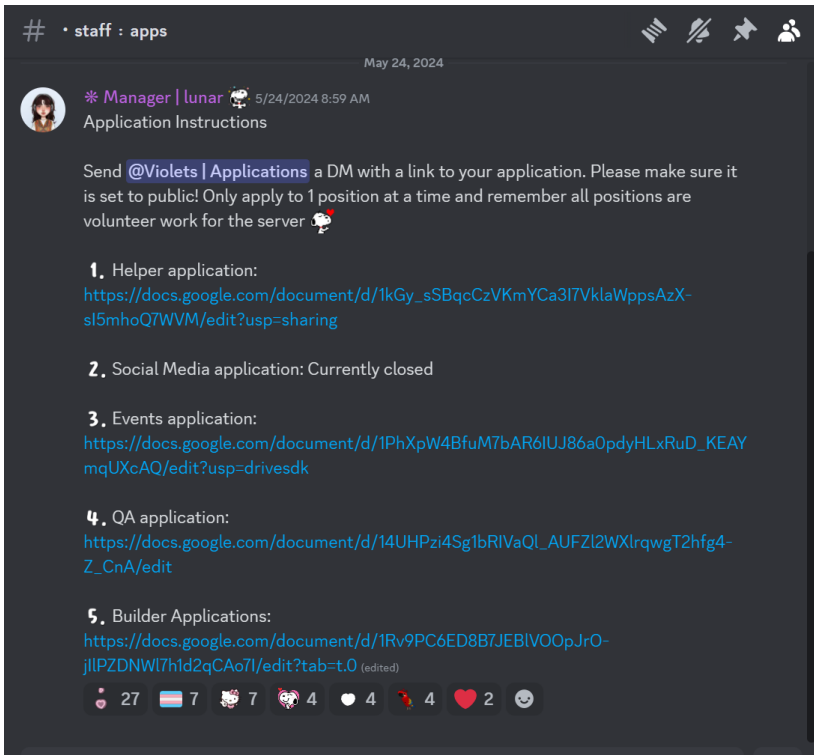

- Build team builds all maps, structures, and builds things like spawn, lobby and warps for the server. They're also one of the coolest team ever.

QA

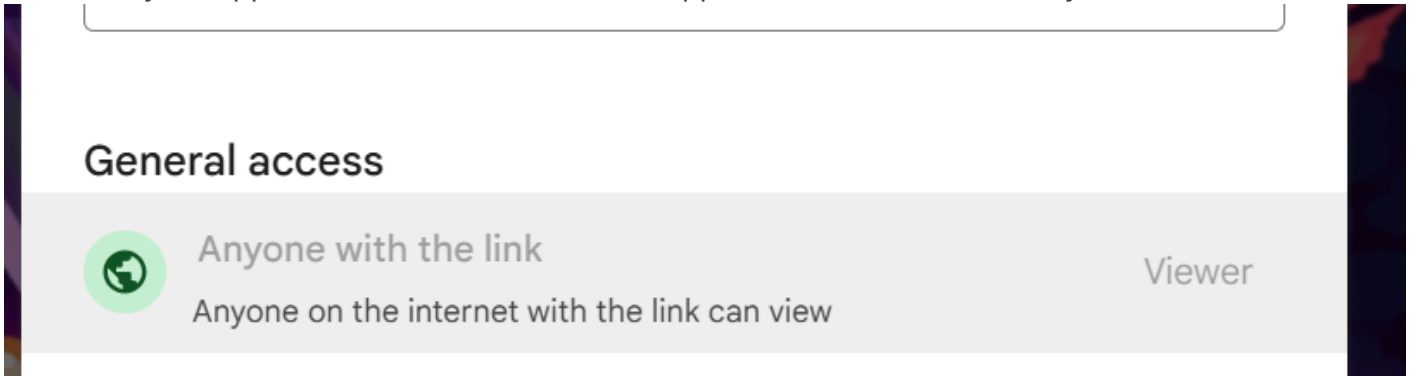

- Quality Assurance helps by creating custom mobs, coming up with and testing new features, creating models, and learning coding.

How do I apply?

1. Browse through our applications in our discord tab "Staff Apps" and select a team you want to apply for! The open teams will have a link next to them!

2. Fill out your application! Make sure that the application is set to allow anyone with a link to view

3. Message the bot "Violets Applications"
